

****An Update from KINGDOM PRODUCTS****

March 30, 2020

The global spread of COVID-19 is affecting all of us and we wanted to take a moment to let you know how Kingdom Products is managing the situation on our end. We continue to closely monitor the information available regarding COVID-19 and follow the current guidance from the leading government and health authorities to ensure we are taking the right actions to protect our employees and our customers.

Kingdom Products is actively practicing internal precautionary measures to protect our employees, limit the spread of COVID-19 and ensure we can continue to support our customers. One such measure is to **temporarily close our showroom at 45 Underwood Road to Public Access.**

Our supply chain is still strong and operating normally, providing us with a consistent source of raw materials and our facilities are operating at optimal levels to provide our customers a steady supply of product. **We are still running full production and we will continue to ship orders**, both Ground and Freight, as long as carriers are still moving. If anything, in regards to our production and order fulfillment changes, we will notify you immediately.

Our sales, customer service and technical support teams remain available and ready to help our customers. Please reach out to our teams as you normally would.

We remain actively engaged and monitoring this fluid situation. As the situation evolves, Kingdom Products remains committed to supporting our customers and keeping you informed.

Thank you for your continued support,

Stay safe

Customer Service and Technical Support continue to be available
by phone at **(888) 824-2383** or **(570) 489-6025**
or email at **info@kingdom-products.com**
